

PERMANENT MAKEUP PRETREATMENT ADVICE AND CONSIDERATIONS

If you are having a lip procedure done and have had a history of fever blisters or breakout of cold sores or mouth ulcers, the procedure is likely to stimulate the problem. You can minimize or prevent an outbreak by obtaining prescription medication for up to 10 days prior and 10 days after the procedure. (Please try not to use the generic brands if possible). In the event of an outbreak, the use of ice and diligent use of medicine may minimize the episode. The sores may cause the loss of pigment in the end result.

Allergy testing is recommended for red pigments one week before the planned procedure. Persons with very sensitive skin and who have a history of allergic reactions should undergo an allergy test prior to a procedure.

Delicate areas may swell slightly or become red. It is advised not to make social plans for the same or next day. Lip procedures may appear slightly swollen and crusty for up to 7 days. The use of Vaseline, Abreva, Hydrocortisone cream and ice will minimize pain the first 5 days.

Bring your normal makeup to your initial consultation appointment. Bring your favorite colored eyebrow pencils and lipsticks to consultation.

Please wax or tweeze at least 48 hours before the procedure any unwanted hair on the brows. Do not do electrolysis or laser within 5 days.

Eyelashes or eyebrows that are usually dyed should not be done within 48 hours before and 7 days after. Eyelash extensions must be removed at least a week before and not replaced for 2-3 weeks after.

No contact lenses during procedures and for several days after eye procedures.

Lash or brow enhancing conditioning products must be stopped 3-6 weeks before any brow or eyeliner procedure.

Eyeliner procedures can cause your eyes to water or swell. It is recommended that you have someone available to drive you if you are taking any additional pain medications on your own as a safety precaution.

Do not use aspirin or ibuprofen or fish oils for 7 days prior to the procedure. No alcohol 24 hours before appointment, NO caffeine in the same 24 hours prior. If at all possible, try to schedule before or after your menstrual cycle. These precautions will minimize pain and bleeding.

Do not sunbathe or tan at least one week before and after procedure. No facial peels or microdermabrasion treatments 2 weeks before.

No Retin A or retinol products 2-4 weeks before procedures.

Injections like Botox should be done a minimum of 3 weeks before. If you get them regularly and are due to have it, get a natural reading of where your brows go first then do injections after two weeks.

These pretreatment and post treatment recommendations will assist in a safe and more pleasant experience during and after your new makeup procedures.

I look forward to making this experience a good one and enhancing your natural beauty with Intradermal Cosmetics.

Blessings,

Micropigmentation Specialist

DISCLOSURE AND CONSENT FOR TATTOO AND DERMAL PROCEDURES

I, _____, as a client have requested that you describe the procedure to be utilized so that I may make an informed decision whether or not to undergo the procedure.

You have described the recommended procedure to be used on Micro Pigment implantation, the process of implanting micro insertions of pigment into the dermal layers of the skin. Micro Pigmentation is a form of tattooing used for the purpose of permanent cosmetic makeup and skin perfection camouflage.

I voluntarily request as my intradermal cosmetic technician, _____, and such association and technical assistance as he/she may deem necessary to perform on my body the following procedure (s). Circle please.

UPPER EYELID LOWER EYELID EYEBROWS FULL LIPS LIP LINER EYEBROWS MICROBLADE
AREOLAS other-_____

PLEASE INITIAL:

_____ I hereby authorize photos to be taken of the work performed both before and after treatment, and I further authorize. the use of said photos to be used in advertising.

_____ I hereby authorize photos to be taken of the work performed both before and after treatment to be maintained in files only.

_____ I have informed my tech that I am in good health and not under the care of a physician for a current illness.

_____ I am currently under the care of a physician and I am being treated for the following conditions:

Dr name and phone - _____

PLEASE INITIAL:

_____ I understand that this description of the procedure is not meant to scare or alarm me it is solely an effort to make me better informed so that I may give or withhold my consent for this procedure.

_____ I have been told that there may be known and unknown risks and hazards related to the procedure planned for me and I understand that no warranty or guarantees have been made to me as to the results.

_____ I acknowledge the manufacturer of the pigment to be applied requires spot testing and officially disclaims and responsibility for any adverse reaction to the applied pigments.

_____ I as a client have requested the procedure I want be described so that I may make an informed decision whether or not to undergo the procedure.

_____ I understand that "PERFECTION" is not attainable due to differences in facial structure and the fact that faces, lips, eyebrows and eyelids are not symmetrical.

_____ I have been informed and understand the touch up policy regarding changes other than the originally decided procedure and color will be additionally charged accordingly.

_____ I understand that no warranty or guarantees have been make to me as to the results.

_____ I understand that there is a possibility of bleeding, infection, skin discoloration, (hypo and hyperpigmentation) , scarring, allergic reactions, (immediate and delayed), granulomas(lumps under skin),migration of pigment away from treated area, fading of pigments over time and inflammation.

_____ I understand that medical problems as well as certain medications, including Sarcoid, Keloid formation, Diabetes, bleeding disorders, the use of blood thinners, Lupus and auto-immune disorders may increase my risk of complications from cosmetic tattooing.

_____ I have been told that this procedure will involve some pain and discomfort (possible immediate and during the first 24 hours or so depending on the individual) and give my permission to my technician to use topical anesthetics to make me more comfortable.

_____ Spot testing does NOT identify individuals who may have a DELAYED allergic reaction to pigment.

I agree to (CIRCLE ONE) RECEIVE OR WAIVE a spot test prior to application and I agree to release _____ my tech, and the pigment manufacturer (s) from any and all liability related to allergic reaction or any other reaction to applied pigments.

_____ I have been told that allergic reactions to pigment are very rare, however, they can and do occur and when they occur they can be serious and especially difficult and troublesome to treat.

_____ I have been told that this procedure will involve some level of pain and discomfort. I have been told a follow up or touch up may be necessary and recommended.

_____ I have been told that there is a chance that I may experience a corneal abrasion with eyeliner.

_____ Other risks involved with the procedure may include, but not limited to: Infection, allergic and other reactions to applied pigments , allergic and other reactions to other products such as eye wash rinses or their preservatives, applied during the procedure, fanning or spreading of pigment or called migration, fading of color and other unknown risks.

_____ I accept full responsibility for any and all present and future, medical treatments and expenses I may incur in the event I need to seek treatments for any known or unknown reason associated with the planned procedure.

_____ I have been given the opportunity to ask questions about the procedures and risks involved and I believe that I have sufficient information to give informed consent

_____ I have agreed that should I have a complaint of any kind whatsoever, I shall immediately notify _____, and I further agree that any controversy or claim arising out of or relating to this consent and/or any signed contract between myself and _____ shall be settled by arbitration in the state of Texas in accordance with the Rules of the American Arbitration Assoc. and judgment of the award rendered by the arbitrator may be ruled in any court having jurisdiction thereof.

_____ I understand that if I have an infection, adverse reaction or allergic reaction to the procedure, I will Notify, a health care practitioner, Texas Department of Health, Drugs Medical Devices Division 1-888-839-6676.

_____ I certify this form has been fully explained to me and I have read it or it has been read to me. I understand its contents.

_____ I have received a copy of the post procedure instructions and they have been fully explained to me and I understand its contents.

_____ I understand failure to follow post care sheet may result in loss of pigment discoloration or infection.

_____ I understand that in approximately 4 to 6 weeks that a follow up procedure may be required.

_____ I understand that there will be an additional fee for touch up procedures due to the cost of anesthetics, pigments, needles, supplies and room fees. There will be one included touch up on full priced procedures unless i paid a reduced rate.

_____ I understand that the cost of my procedure is NON REFUNDABLE.

_____ I understand that the clinical outcome for any of the above described procedures is in direct proportion to the nature of my skin pathology and condition. All conditions must be revealed or disclosed by me on the Medical History Form regarding my health history, medications taken, and any past reactions to products used or medications taken. Additional conditions could be discovered during the procedure, which could affect my ability to tolerate the procedure, I understand the nature, purpose, risk of the procedure and the possibility of complications as disclosed to me. I acknowledge that no guarantee has been made regarding the results which may be obtained through these procedures.

I certify that I have consulted with _____, and have read all applicable literature made available to me. The risks of the intradermal cosmetic procedure I have chosen have been disclosed to me. I have read and fully understand all the information presented to me in this consent and release form. I accept the explanation of potential complications and risks described herein. I accept full responsibility for these and any other complications, which may arise or result during or following the intradermal cosmetic procedure(s), which are to be performed at my request. I certify that I am 18 years of age or older, of sound mind, and am fully capable of executing this consent and release for myself.

Signature _____ DOB _____

Please answer or initial where indicated:

Do you keloid scar? _____ It is a pinkish puffy type of scarring. There is little history that eyeliner and brows will do so; but, lips are in fact questionable.

Are you allergic to antibiotic creams? _____ Neosporin, Bacitracin, Polysporin/ This allergy can result in skin irritation and bumps.

Do you have difficulty getting numb (like at the dentist)? _____

Do you have problems with pain control? _____

_____ I understand redness, puffiness and dilated pupils are a normal progression with topical anesthetics.

_____ I understand Epinephrine in topical anesthetics can make your heart race. This is not an allergic reaction.

_____ I understand some topicals may produce contact dermatitis reaction to the skin around the eyes in some people, however rarely, it can happen.

On Anesthetics:

The products used in Permanent Cosmetics are off label use. This means they are not approved by FDA for use in this field. There is NO approved anesthetics for tattooing or permanent cosmetics specifically to date. The labeling will be for other body mucosal tissue sites stated on the bottles..., making it safe for the areas we do work. There is always the rare chance of corneal abrasion or allergic reaction as stated in the paperwork given to you for informed consent.

As with everyone, I have taken additional classes and follow the guidelines to keep you as comfortable as is possible, while staying within the guidelines that are standard for this practice.

Please discuss any allergies to novocaine or any 'caine" or other numbing product or process. This is important information.

_____ I have read and understand this information regarding anesthetic topical gels and creams.

TOUCH UP PROCEDURE SHEET EFFECTIVE 1/31/07

In order to insure that your permanent cosmetics procedure is complete, a touch up or follow up appointment is made at 6 weeks. The following is a description of exactly what is covered without additional costs with your procedure and what the additional charges may be thereafter.

At your consultation, and by the day of the procedure, we will have established what you want. It will be noted in your chart and photographed when you leave_ Any deviation from perfecting this will be considered additional work, ie., thickening the eyeliner (as this is all virgin skin and a new liner on top of what we did).

One touch up is included in your price. If you do not show up for your scheduled touch up, there is a \$75.00 fee for the included touch up as the office is reserved and the 1-2 hours of time will be a loss.

Touch up work on procedures NOT done by me will begin at \$350.00 up to full price depending on color correction, matching, shape correction etc. A touch up is to perfect what was originally done by me. Color changes , thickening, changing shape are more involved than small areas that didn't heal well, loss of color due to poor post care, cold sores etc.

If we select a color together, and at touch up time you dislike it or want to change it to a lighter or darker color or altogether, it is a \$150.00 to go completely over it. Color changes after 6 weeks and up to 6 months plus, will be \$150.00 and after 6 months full procedure price.

Changing color on procedures NOT done by me is a full price procedure.

If you arrive with blue lips, blue, pink or orange brows or liner and they were NOT done by me; these are all corrective procedures and begin at \$350.00 and up to full price.

If you want a natural lash enhancement, and at 6 weeks decide you want it thicker it is actually a new liner on top of what you already have. There is a \$150 .00 charge for an additional liner on top. After 6 months it is full price.

_____ I have read and understand what a "touch up" is and am clear on any charges I may incur. There is no deviation from the above.

POST CARE PROCEDURE INSTRUCTIONS

FOR ALL PROCEDURES:

EYEBROWS, LIPS, EYELINER, LIPLINER/FULL LIPS, AREOLA:

IMMEDIATELY FOLLOWING PROCEDURES: APPLY ICE TO TREATED AREA FOR 1-30 MINUTES. ICE HELPS REDUCE SWELLING AND AIDS IN HEALING. DO SO FOR THE FIRST TWO DAYS OFTEN FOR FASTER HEALING AND COMFORT!

FOR 7 –14 DAYS POST PROCEDURE:

Gently cleanse the area with mild antibacterial soap, rinse with water, pat dry morning and night.

Follow this with a sparing smear of Bacitracin (if not allergic) with Q-tip only.

Follow this with a sparing smear of Vaseline with Q-tip only... and continue this all day for 7 days or more to keep moist. BE SURE TO TOUCH THE COLOR!

Do not rub, pick or wipe hard at the epithelial crust; allow it to flake off on its own. There should be absolutely no scrubbing, no cleansing creams or chemicals.

Do not expose treated area to full pressure of the water in the shower.

Do not soak treated area in bath, swimming pool or hot tub. Do not swim in fresh, salt or chlorinated pool water.

Do not expose the treated area to the sun.

Use a total sun block after the procedure area has healed to prevent future fading of pigment color.

Do not use mascara or eyelash curler for days post procedure. When you resume, use a new tube as the old tube may have bacteria in it.

If you are a blood donor you cannot give blood for one year. (Per American Red Cross) Use sterile bandages and dressings if necessary. (areola and Camouflage procedures cannot be guaranteed.

I understand that at the first sign of an infection, adverse reaction or allergic reaction to the procedure, I must notify Debbie Santa Barbara and a healthcare practitioner and the Texas Department of Health, Drugs and Medical Devices Division 1-888-839-6676.

Failure to follow post-treatment instructions may cause loss of pigment, discoloration or infection. Remember, colors appear brighter and more sharply defined immediately following the procedure. As the healing progresses, color will soften. A touch-up procedure may or may not be necessary. Results cannot be determined until healing is complete. Touch- up procedures must be made within 6-8 weeks following the procedure. Additional fees will apply for touch-ups after 6-8 weeks.

Microblade Brow Post Care:

Day 1 after procedure please blot away, any blood until gone after anesthesia is worn off. Keep moist with a SPARING smear of Grapeseed oil. You are done blotting when you see no blood on baby wipe. DO NOT RUB!

it is important that you do not OVER LUBRICATE OR ALLOW TO GET DRY!! Don't sleep with a ceiling fan as it will dry them out.

Don't get wet for 5 (please keep hands off always to keep clean) Cover in shower with wash cloth when washing hair.

Keep hair and sweat off brows.

After 5 days follow your regular post care sheet.

After 7 days you should be completely peeled or shed and done until touch up time a 4 to 6 weeks depending on your age. Under 40 is 4 weeks and over 40 is 6 weeks.

Please follow all post care as this is the best way to achieve the most result. If you do not take care of them properly, you stand the risk of infection and poor result. Microblade brows are a semi permanent procedure and will last a year or more if you use sunscreen and keep harsh creams like Retin A or glycolic washes off them. If you swim in chlorine regularly, coat with Vaseline or use a skin barrier cream to keep them from fading.

If you have any questions, please do not hesitate to contact me.

Thank you.
